

The challenge

Everyday numbers challenge (Higher level)

Numbers can be found everywhere in football – from match results to player shirt numbers, to the referee blowing the full-time whistle after 90 minutes.

For this week's challenge, we would like you to go on a **number hunt** and take note of all the numbers that are a part of your day. Using our **Number timeline worksheet** below, record where, when and which numbers you see as you go about your day. You don't have to fill out the whole timeline if you don't want to – and feel free to decorate it with drawings, or even make it into a collage.

Example

- **8:00 am** Made **2 pieces** of toast for breakfast.
- **11:00 am** Played football with my **1 sister**. I **lost 3 - 2**.
- **11:45 am** Washed my hands for **20 seconds**.
- **2:00 pm** Turned to **page 31** in my book and read for **½ an hour (or 30 minutes)**.
- **5:00 pm** **Measured out the ingredients** to make a curry for dinner.
- **6:00 pm** **Used coordinates from a map** to play an online game with my friends.
