

The Challenge

Writing your own match report

Premier League Primary Stars and Sky VIP are teaming up to bring you this week's challenge.

Sports journalists work hard researching and planning stories in order to give us the content we want to read - whether it's a report on a match between our favourite football teams or an article about our favourite player.

Imagine that you are a sports journalist for the day. We want you to write your own report based on the short **match clip video** featuring Wolverhampton Wanderers versus Newcastle United. Alternatively, you could write about a sporting moment that matters to you.

Use the activity sheet '**Over to you!**' for more ideas and to help you plan. Once you are ready, use the template below to write your report. If you can't print the template, just write your report on a piece of paper and send us a photo.

We would love to read your report! To be in with the chance to interview former Premier League player Jamie Carragher via video call, please share your match report with us at **@PLCommunities** using hashtag **#PLPrimaryStars** or contact us via email **PLPrimaryStars@premierleague.com**.

Top tips for writing your report

- Be as clear and concise as possible.
- Always be accurate with the key information- match score, scorers etc.
- Decide what the key elements are that you need to include in the report.
- Try to express yourself and tell the story in your "voice".
- Use language that will interest and engage the reader.

- Think of a headline that will draw the reader into the report
- Write quickly so that you don't miss any of the action!

Taken from the 'A day in the life of sports reporting' film.

The Challenge

Writing your own match report

The template below is formatted like a news bulletin, remember to include your headline at the top and use the icons on page one to highlight key moments in your report

Author (First name)

Age.....
